

The New Standard.

Welcome to Armis. **We deliver end-to-end durable label solutions – smarter, faster and built to last.** From stock labels to fully customized solutions, our approach sets a new standard for durable label programs – a standard that produces greater customer value and unmatched performance in today’s most demanding environments.

The Armis Difference

World-class expertise with proven, high-performance products. We deliver the right solution, on your timeline, with an unmatched commitment to your success.

Your Competitive Advantage

As innovative problem solvers backed by deep technical expertise, we take on every customer challenge as if it were our own. No matter the need – from on-demand stock to customized solutions – we’re equipped to specify and deliver with greater speed and accuracy.

Our size gives us the flexibility and agility to work in true partnership with our customers, changing expectations for responsiveness, accountability and label program performance. At Armis, we deliver durable label solutions that outperform on every level – transforming labeling programs from cost centers to business assets.

End-to-End Solutions. Proven Performance.

Our global client base knows Armis through our best-in-class brands – IDENTCO, Reliance, Trebnick – which represent decades of proven quality. From specification to integration to delivery, we produce industry-leading durable labels, tags, software and printers that increase operational efficiency and safeguard brand integrity across today's most demanding environments.

Compliance Guaranteed.

Backed by recognized national and international certifications, our durable label solutions are engineered to meet the highest standards of reliability – preventing operational disruptions, product recalls, regulatory noncompliance and reputational risk.
