

Labels for Life.

# IPS-30

## Label Feeders

IDENTCO offers a robust range of label feeders/presenters for integration with SMT pick and place or special machines. Automatically pick and place PPL™ labels like any other SMT component. Each model is designed and manufactured to the highest standards for a seamless, reliable interface with your SMT pick and place equipment. The IPS-30 is the slimmest label presenter on the market. At merely 30mm (1.18 in.) wide, the IPS-30 requires only one feeder position in your pick and place machine and can feed labels or die cut parts as small as 2mm x 2mm.

### Features and Benefits

- Easy setup and operation
- Easy label loading and change-over
- Compatible with most SMT pick and place machines
- Low maintenance costs
- Compact and durable designs
- High-speed presenting of IDENTCO PPL™ labels (Results with other labels may vary)

### Machine Compatibility

Pick and Place Machine	Model	IPS-30
ASM (Siemens)	X series	✓
	X series, D, F, HF, S, SX,E series	✓
