# Q-Chem

OPTIMIZING CHEMICAL MANAGEMENT

Quantum's Cloud-Based Chemical Management Software provides chemical users and distributors a state-of-the art management package.
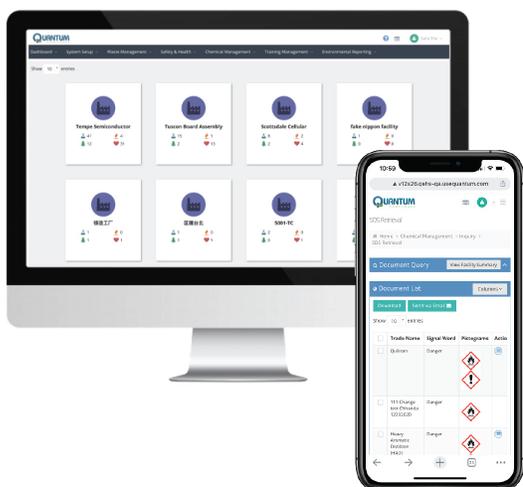

With Q-Chem you can easily retrieve SDS and inventory information; quickly update data as needed; and search files using keywords with its robust search capability. All information is immediately accessible via mobile and desktop. Plus, Q-Chem offers you the flexibility to tailor business reports to suit your company's specific needs.

Q-Chem covers the whole chemical lifecycle

Procurement	Delivery	Inventory	Internal Distribution	Use	Collection	Treatment/ Disposal
Authorization	Centralized SDS Management	Inventory	GHS Labelling	List of Lists	Centralized SDS Management	Centralized SDS Management

With Q-Chem you will meet OSHA/WHMIS Hazard Communication Requirements in the workplace while efficiently tracking chemical inventory, usage and labeling - at every step in the chemical lifecycle. Review chemicals before purchasing to find the best product. Identify changing regulatory list status. Track on-site chemical quantities and hazards.

Built for clarity & efficiency

- Generates dashboard reports for business insight and decision-making
- Delivers powerful search of SDS, associated documents and inventory database
- Unlimited user accounts come standard
- Equips you to monitor SDS by location - old paper binders no longer needed
- Automatic reminders for SDS updates
- Generates & prints GHS-compliant labels

- Continuously updates global registration list and ingredients database

Reliance Label Solutions®

Q-Chem delivers a safer environment

With the immediacy of information Q-Chem provides, you can prevent:

- Exposure of employees to unsafe conditions
- Company risk of non-compliance and related fines
- Damage to chemical inventory because of a lack of information readily available
- Inefficiencies of paper-based management by implementing a digital process

Centralized Management

- Better business Insight
- Multiple query methods to quickly locate SDS, chemicals, & inventory

Increased Productivity

- Ensure employees access the SDS to stay safe and work efficiently
- Easily manage all SDS files in all locations

Lower Costs

- Avoid fines for violations
- Easily generate GHS labels in different languages

Assurance of Regulation Compliance

- Compliance with GHS and other regulations
- User defined list for internal policy

Quantum...immersed in EHS

For over thirty years, Quantum has served the EHS market with "no-hassle" software solutions that reduce risk and create cost-saving efficiencies in GHS compliance. What differentiates us is the combination of our understanding of the global chemical industry with our smart technology. We work with Fortune 500 companies as well as small to mid-sized corporations around the world. Our diverse team of safety professionals, talented developers, and managing leaders all work in sync to provide you a custom solution.
